

ELIKANTE CHARAN

elikantecharan@gmail.com — +91 9392642783 — GitHub — LinkedIn

Professional Summary

Computer Science Engineering undergraduate with skills in Python, Java, SQL, Machine Learning, and Data Analytics. Experienced in developing AI/ML and software projects with a strong foundation in Data Structures, Algorithms, DBMS, and Operating Systems. Seeking an entry-level Software Engineer, Data Analyst, or AI/ML Engineer role.

Technical Skills

Programming Languages: Python, Java, JavaScript, C, SQL

Frameworks & Libraries: React.js, Node.js, Pandas, NumPy, Matplotlib, Scikit-Learn

Databases: MySQL, MongoDB, Firebase

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Postman

Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Relevant Coursework

Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Machine Learning, Data Analytics

Education

JB Institute of Engineering and Technology, Hyderabad

2022 – 2026

Bachelor of Technology in Computer Science Engineering

CGPA: 7/10

Narayana Junior College

Intermediate (MPC)

Gyana Bharathi High School

Secondary School Certificate (SSC)

Projects

AI-Powered Smart Recruitment System

Machine Learning, Python, Scikit-Learn

- Developed an intelligent recruitment system that analyzes candidate profiles and predicts job suitability using machine learning algorithms.
- Performed data preprocessing, feature engineering, model training, and performance evaluation using Python and Scikit-Learn.
- Improved candidate screening efficiency through automated ranking and recommendation techniques.

Weather Prediction System using LSTM

Python, Deep Learning

- Developed a weather forecasting model using Long Short-Term Memory (LSTM) networks.
- Applied time-series analysis, data preprocessing, feature scaling, and model evaluation techniques.
- Improved forecasting accuracy through deep learning-based prediction methods.

Calendar Event Management and Notification System

React.js, JavaScript

- Developed a calendar-based event scheduling application with notification and reminder functionality.
- Enabled efficient event tracking and automated reminders to improve productivity.
- Designed a user-friendly interface for seamless event management.

Certifications

- GenAI Powered Data Analytics Job Simulation – Forage
- Explore Machine Learning using Python – Infosys Springboard
- JavaScript Front-end Development: Development Basics – Skillsoft
- Python Programming – Scaler Learning

Achievements

- Completed 4 industry-recognized certifications in AI, Data Analytics, Python, and JavaScript.
- Built 3 end-to-end projects in Machine Learning, Deep Learning, and Web Development.
- Applied predictive analytics and data visualization techniques through practical project implementations.

Additional Information

Languages: English, Telugu, Hindi

Areas of Interest: Software Development, Artificial Intelligence, Machine Learning, Data Analytics, Full Stack Development, Competitive Programming
